

SP-STAR LASER LIGHT

LASER

SPECIFICATION

- Classification: Class 3B
- Color temperature: 5500k
- Operating Temperature: -20c ~ 35c
- Project distance: >10m
- Service life: 8000h
- Input voltage: DC 12V power adaptor
- Output voltage/current: 5w
- Power/power factor: <0.5s
- Protection Level: IP65
- Working mode: Auto, Sound, DMX512

DIGITAL DISPLAY

- Flexible operation
- Can be connected to DMX controller
- Control the rotation speed and brightness of laser light
